

## Environmental and Sustainability Concept

**At Palais Events, we are committed not only to the highest standards, but also to our guests, our employees, and our environment.**

For us, sustainability is more than just a word – it is brought to life through the people who work with us and the guests we welcome. Together, we want to take responsibility and contribute step by step to doing something good for both people and the environment.

### **Goal I: A Great Place to Work**

As a responsible employer, we create an environment in which our employees feel valued and supported, can work in a healthy manner, and are able to balance their professional and personal lives.

### **Goal II: Celebrate & Enjoy with Environmental Awareness**

Together with our guests, we are developing ideas for plastic-free and more environmentally friendly events. We welcome suggestions, because every small contribution counts – and together we can achieve more.

### **Goal III: Regional. Seasonal. Organic.**

We focus on regional, seasonal and organic food. It not only tastes better but also supports our environment and local businesses.

### **Goal IV: Sorting Waste Made Easy**

With clear colors and labels, we make waste separation simple. This allows everyone to help conserve resources with minimal effort.

### **Goal V: Protecting Water**

By using environmentally friendly cleaning products and the correct dosage, we collectively contribute to the protection of our waterways.

### **Goal VI: Digital Instead of Paper**

Wherever possible, we work paperless. This saves resources and makes our processes more modern and efficient.

**Whether as a guest or an employee – together, we make a difference!**
